OXITA TECHNOLOGIES LLP

COMPANY PROFILE

Oxita Technologies LLP was founded in 2012 with strong team of professional engineers. Oxita focus on wired & wireless products; video monitoring systems. In our R&D team there are engineers from Wipro, Sekonic & Capgemini... these world famous IT Companies. With more than 5 years efforts we are known as “New High-Tech Enterprises”.

We are not only into wired & wireless video monitoring products provider, but also manufactures professional smart home security, corporate security and into fire safety solutions. We devote towards continuously improving video monitoring technology and video analysis technology.

Currently, All our smart product are developed independently. The product line covers security products, smart home kits, fire safety products, RFID & Video door phones. We aim to develop the most user-friendly, fashionable and high-tech smart products for our customers. Looking forward to build relations.
